

:30 PSA Script (audio only)

The American Diabetes Association wants you to know that November is American Diabetes Month.

It's a month to raise awareness of the nearly 1 in 2 of us living with diabetes or prediabetes.

A month for the mother diagnosed with chronic kidney disease.

A month for the friend who's learned diabetes is causing their blurred vision.

A month for the child placing an insulin pump for the first time.

The ADA is fighting for a cure for them all.

Will you join the fight by making a donation?
